

THE STORY OF U-HACK

U-Hack has been around since 2004. We couldn't call our group "you suck at golf", so we settled on U-Hack. We're a small group of hackers!

Our very first U-Hack tournament was at Grayhawk in July of 2004 for \$66, which included the betting and lunch. It was 10 AM tee times. You can see details of that event and the rest of that year by clicking on [ARCHIVES](#).

We now try to focus on early shotgun starts to beat the heat. We follow USGA rules with a couple of exceptions...double par maximum on a hole, no provisionals, OB/lost ball/ unplayable lie drop in nearest fairway with one penalty stroke (no stroke and distance), ball in the water go to the other side (if you want) and add a stroke. Ball on a cart path can be dropped in the nearest grass no penalty. You MUST still putt out and CAN'T roll the ball over in the fairway. If you tap the ball on a small putt and it doesn't go in the cup...add another stroke. You can see more on our rules at <http://www.kapsite.info/U-HACK/uhack.rules.pdf>.

There have been 311 different players over the years who have played 4560 rounds of golf with U-Hack. We average 21 hackers at each event. The average cost to golf for everyone over the years is \$32.51 per event. Here is the Average Cost To Golf list of the top 30 current players.
