## **U-HACK @ GOLF**

*Häcker is a German, Dutch or Jewish occupational name for a butcher. That is us!*

We are a small group of hackers that play once a month at various courses. Our average turnout is about 21 players per event, which along with modified rules allow us to finish golfing quicker than most other tournaments. Membership is free and play is open to all skill levels. Click [HERE](#) to see some of our history.

Click on Archives above to see where we have played. Click on Schedule above to see upcoming events.
